

Range Cattle Research and Education Center

PRESS RELEASE

New Limpoglass Cultivars Released by UF

August 7, 2014 –

University of Florida / IFAS Range Cattle Research and Education Center and the UF Agronomy Department release two new cultivars of limpoglass (*Hemarthria altissima*) at a special event held August 7, 2014 at the Center. The new cultivars, Kenhy (4F) and Gibtuck (10), have been developed over the past 8 years through a collaborative effort of these 5 individuals (below) - Dr. Lynn Sollenberger, Dr. Joao Vendramini, Bert Tucker, Dr. Ken Quesenberry, and Dr. Ann Blount.

Limprogass Release attendees standing in field of freshly cut Gibtuck Grass.

Bert Tucker standing in Gibtuck (10) Limprogass.

Dr. Ken Quesenberry standing in Kenhy (4F) Limpoggrass. — with Kenneth Quesenberry.

Attendees examine Kenhy (4F) Limpograss.

Kenhy (4F) limpoglass

Gibtuck (10) limpoglass
