

## **Guilherme Messias de Araujo**

Student Intern, Exchange Visitor (7-15-19 to 11-8-19)

Animal Science

Hello, my name is Guilherme Messias de Araujo and I am from Amparo, São Paulo. I am the only child of Patricia Moraes Messias and Ricardo Pires de Araujo.

I began my bachelor of animal science degree program in 2015 at the Sao Paulo State University (UNESP) - Botucatu / SP and became a member of the CONAPEC JR extension company at Universidade Estadual Paulista-Unesp/Botucatu. Lead by Dr. Jose Luiz Moraes Vasconcelos, CONAPEC is responsible for training undergraduate and graduate students, organizing seminars and conferences, and also for consulting and research in nutrition and reproduction of beef and dairy cattle. Being a member of CONAPEC gave me the opportunity to come to the UF/IFAS-Range Cattle Research and Education Center to work with Dr. Philippe Moriel for my undergraduate required internship. I plan to graduate in December.
