

Shanna Stingu

MS Student

Soil and Water Sciences

Shanna Stingu moved to Florida from Bruce, Wisconsin, in 2006. She obtained a nursing degree and has worked for 11 years as a licensed practical nurse. Pursuing her passion for earth sciences, she attended Florida Gulf Coast University and received a BS in Marine Science.

In summer 2019, Shanna began her MS at University of Florida with the Soil and Water Science Department under the advisement of Maria Silveira. Working with the LTAR project, she will be assessing soil carbon changes and greenhouse gas emissions in the wake of burn and chop treatments.
