## Elizabeth Palmer

### Biographical Information

Originally from Pennsylvania, Elizabeth received her B.S. in Animal Science from Penn State University. While there, Elizabeth worked as an undergraduate research assistant in a dairy nutrition lab where she developed an interest in research and ruminant nutrition. Wanting to gain further research experience, Elizabeth interned at the United States Meat Animal Research Center in Clay Center, NE in their environmental unit. After graduating from Penn State in 2016, Elizabeth spent the summer interning at the Nobel Research Institute in Ardmore, OK. While there Elizabeth worked alongside cattle consultants and worked closely with their Integrity Beef Program.

Elizabeth moved to Fayetteville, Arkansas in 2016 to obtain her masters degree in Animal Science from the University of Arkansas. Her thesis work evaluated the effects of yeast products supplemented during various stages of beef production. She is now at the University of Florida pursuing her PhD with Dr. Philippe Moriel. Her dissertation will focus on nutritional management strategies in cows and heifers and the impacts on their offspring.

Ph.D. Student
